SCOPE OF WORK:

The Contractor will perform a study and analysis of the National Photographic Interpretation Center data processing and information handling systems in accordance with the Contractor's Proposal No. SCP-6584, dated 3 September 1965, which is incorporated herein by reference and made a part of this task order, and; by the following Statement of Work:

A. The Contractor will prepare design concepts and an implementation plan for an integrated information system responsive to NPIC needs which will provide, among other things, a measure of flexibility and responsiveness which cannot be achieved with the present data base.

B. The Contractor will:

1. Review and itemize all substantive information received, developed and disseminated by the NPIC.
2. Review current substantive information processing methods, including the filing rationale and the structure, physical form and effectiveness of the files.
3. Review the current substantive information processing facilities and equipment.
4. Determine information requirements at each point in the NPIC production process.
5. Conduct an organizational review to characterize the flow of information within the NPIC and between the NPIC and other groups.
6. Conduct an analysis of the information determined in Items 1 through 4 and prepare flow diagrams and statistical analyses (e.g., volume, frequency, throughput rates) of both current and projected operations.
7. Define the functions of the photo-intelligence system that will comprise the substantive integrated information system.
8. Prepare and evaluate alternative configurations of the functional flow diagrams to determine where efficiency can be improved through the use of manual or automated techniques.
9. Prepare functional and performance specifications for the proposed substantive integrated information system.
10. Prepare program plan for follow-on phases (detailed subsystem design, programming, and implementation of integrated information system components).
